Icon Desktop In Taskbar Repair (LifeTime) Activation Code [32|64bit]

The "Show Desktop" icon is in charge of minimizing all opened windows to the taskbar, in order to take you straight to the desktop. Unless this icon is visible, you can perform this action by pressing Win+D or Win+M. Unfortunately, the "Show Desktop" icon is no longer part of the quick launch bar starting with Windows 8. Therefore, it addresses users who are running Windows 7 or older editions. It doesn't come packed with any options or configuration settings. All you have to do is run the tool and let it do its job. There is no setup phase involved. It's simply a matter of downloading the.bat file and double-clicking it to fire up the software program. It doesn't have any software dependences, which means that you can keep the batch file safely stored on a USB flash drive to directly run it on any PC to repair the "Show Desktop" icon. Open the.bat file and press any key The lightweight tool comes wrapped in a command-line interface and shows some copyright information in green font. As instructed by the developer, you can press any key to trigger the repair job, which gets done instantly.
